INVITATION FOR BID NO. GSA/PAG-015-16
CORROSION CONTROL SUPPLY AND MATERIALS
AUGUST 16, 2016

Questions submitted by JMI-EDISON dated August 10, 2016 and received August 10, 2016

Inquiry 1 Supplier has concerns on the following line item numbers 1.1-6.1, as there were a few descriptions in the requirement that need clarification.

1.1 : is calling for a High Solids Two Component Polyamide epoxy (Haze Gray) in a two gallon kit. The Carbomastic 615 is a Phenalkamine Epoxy, which is a 4:1 mix ratio and makes a one-gallon kit.

2.1-6.1: Carbomastic 615 is called out, but it is definitely not Polyurethane

Response:

1.1 :

2 gallon kit; equals to (1) gallon primer and (1) gallon activator, 4-to-1 mix ratio; is equivalent to (3) quarts primer and (1) quart activator which equals 1 gallon, request is to double the order to equate a 2-gallon kit. The Phenalkamine Epoxy is a primer.

2.1-6.1: See Amendment 1

A handwritten signature in blue ink, appearing to read 'Claudia S. ACFALLE', is written above the printed name.
