INVITATION FOR BID GSA-089-17
AMBULANCE FOR GFD

Questions received from Mid Pac Far East 09/22/17

Question: 1
After further inquiries with the GM, ford and Dodge Truck Dealers on Guam, they cannot get a "Non-DEF Diesel Engine" in their 1-Ton Dually Chassis. Even though that option is allowable by law, the 3 major Light Duty Truck manufacturers have decided to forego supplying it. Please amend the Engine Spec and delete the final two sentences.

Question: 2
There is no mention of the HVAC Performance characteristics other than a 2nd A/C compressor. Please provide the minimum BTU capacity for the Patient Compartment HVAC System.

Question: 3
Please identify the specification regarding the COLOR of the Ambulance. We could not find it or any other references for Paint, Striping or Logos. Will a reflective Chevron on the Rear Panel be required?

Question: 4
On page 45 under "Warranty Performance", GFD is requesting to retain the "defective and replaced parts", but most Medic Manufacturers require that the parts be returned for analysis and core changes. The next line is in conflict with this requirement by stating that the successful bidder is responsible for returning the defective part to our supplier. Please delete the first section.

Question: 5
On page 47, Item #3, please clarify how inclusive does the bill of materials have to be?

Question: 6
Page 49 – Seating: Your specification is confusing. Please confirm that if the seating is the same as GSA-002-12 Ambulance Bid (previous 10 units), it will be acceptable.

Question: 7
Due to sporadic increases in Chassis Production times, please extend the Bid's Performance/Delivery Time to 360 Days after receipt of purchase order.

Response: For "All Questions" Refer to "Amendment 5"

CLAUDIA S. ACFALLE
Chief Procurement Officer
