Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.41 per hour or \$176.40 per week or \$764.40 per month

HEALTH & WELFARE EO 13706: \$4.13 per hour, or \$165.20 per week, or \$715.87 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) **AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY:** If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial

laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE,
Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1)).

The Chief Procurement Officer shall have the authority to award, cancel, or reject bids, in whole or in part for any one or more items if he determines it is in the public interest. INTRODUCTION

These specifications are reflective of the Guam Fire Department and its needs. Most importantly, the specifications herein stated are to maximize firefighter capabilities and minimize risk of injuries, therefore exceptions will not be acceptable. The Guam Fire Department is the primary **Fire and Emergency Services** organization on the island of Guam serving a population of over 150,000. Its primary mission is to provide quality emergency and non-emergency services to the population it serves either living, working, investing or visiting the island of Guam. This is accomplished by responding to fires, emergency medical incidents, hazardous materials incidents, and performing services to save life, property and preserve its environment. Guam's geographical location and inherent exposure to the elements of its environment include high heat temperatures, corrosion and decomposition factors, humidity and moisture. These are of some major concerns for any vehicle type to consider in the field of fire and emergency services on a Pacific island approximately 212 square miles with an elevation of 1332 feet.

INTENT OF SPECIFICATIONS

Bids are requested for **1 (ONE) AUXILIARY EQUIPMENT SET** to include, at a minimum, the items specified within this document. In general, this Auxiliary Equipment Set shall provide protection for responders during HazMat operations where there is a threat or potential threat of release of hazardous materials and substances. The bid price must remain valid for a minimum period of 365 days from the date of receipt by the General Services Agency of the Government of Guam.

It shall be the intent of these specifications to cover the delivery of one Auxiliary Equipment Set as hereinafter specified. It is and must be understood that no bidders on Guam, as of this bid, are capable of constructing or manufacturing Auxiliary Equipment Set, but are only representatives of off-island manufacturing companies through contract.

Bids shall only be considered from bidders representing manufacturing companies that have an established reputation in the field of construction of Auxiliary Equipment Set. Further, the bidder shall specify the manufacturing company they represent, and shall maintain a service agreement for the Auxiliary Equipment Set being sold. Evidence of such shall be included in bid.

Each bidder on Guam shall furnish satisfactory evidence of the manufacturer's ability to construct the Auxiliary Equipment Set specified. The bidding contractor shall also show that they, and the manufacturing company they are representing, are in position to render prompt service and to furnish replacement parts.

Each bid shall be accompanied by a detailed description of the Auxiliary Equipment Set to which the Auxiliary Equipment Set furnished under contract shall conform. These specifications shall indicate materials, model, and make of all component parts and equipment.

ELIMINATION OF DIVIDED RESPONSIBILITY

It is emphasized here that the responsibility for the quality of the entire Auxiliary Equipment Set, to include warranties and warranty work, lies solely with the successful bidder so that divided responsibilities are not a problem to the Guam Fire Department. This would maintain improved service ability, maintain longevity, provide excellent quality and reliability, fit and finish, and reduced construction and assembly time. Therefore, bids shall only be accepted from bidders that accept responsibility for the collective management and action on all warranty components.

Each bidder on Guam shall furnish satisfactory evidence of their representing company's ability to assemble the Auxiliary Equipment Set specified. The bidder shall also show that the local service facility is capable of rendering prompt service for issues that may arise and keeping replacement parts on hand.

MANUFACTURER'S RELIABILITY

The bidder on Guam and the representative's manufacturer must be satisfactory to the Guam Fire Department and the General Services Agency of the Government of Guam in terms of experience, reliability, and demonstrated ability to manufacture equipment, comparable to the type specified.

PROTOTYPES

No prototype or experimental Auxiliary Equipment Set will be accepted. The builder must demonstrate that it has successfully produced Auxiliary Equipment Set of similar design in the past. Total deviation to these specifications will be cause for immediate rejection.

SERVICE ABILITY

All bidders shall provide details of their ability to warranty and service, replace, or repair the Auxiliary Equipment Set proposed. The service ability section of these specifications will be a major factor in determining the successful bidder. For warranted items that require replacement, the bidder shall have a plan and excellent rapport with the manufacturing company to expedite arrival of replacement items in order to minimize downtime for the Auxiliary Equipment Set proposed.

SPECIFICATION BID REQUIREMENTS

Bidder shall also indicate in the "Bidding On" column if their bid complies on each item (PARAGRAPH) specified. Exceptions shall be allowed if they are equal to or superior to that specified and provided they are listed and fully explained on a separate page. Proposals taking total exception to specifications shall not be acceptable.

EXCEPTIONS

All exceptions shall be stated, no matter how seemingly minor. Any exceptions not taken shall be assumed by the purchaser to be included in the proposal, regardless of the cost to the bidder. **In instances that the specification states '(no exception)', failure to comply will result in the bid being rejected.**

EQUALS CLAUSE

Unless otherwise stated by the bidder, the bid/quote submission will be considered in strict accordance with the specifications in this document.

REFERENCES TO A PARTICULAR TRADE NAME, MANUFACTURER'S CATALOG OR MODEL NUMBER ARE MADE FOR DESCRIPTIVE PURPOSES TO GUIDE BIDDERS AND THE MANUFACTURING COMPANIES THEY REPRESENT IN INTERPRETING THE SPECIFICATIONS AND REQUIREMENTS OF THE GUAM FIRE DEPARTMENT.

These references should not be construed as excluding proposals of other types of materials or designs, unless otherwise stated. The bidder awarded the contract shall furnish each item referred to in the final specifications. **Bidders and manufacturing companies submitting specifications that are equal to or greater than these specifications, hereinafter referred to as "Equivalent(s)", could be allowed after review for said quality and compliance.**

FAILURE TO LIST EQUIVALENTS

Failure to list an equivalent means the contractor is complying 100% with these specifications. Auxiliary Equipment Set will be inspected on delivery for compliance with specifications. Exceptions will not be acceptable and can be cause for immediate rejection of Auxiliary Equipment Set unless they were originally listed in the contractor's submission. Liquidated damages (penalty) of one-fourth (¼) of one percent (1%) of outstanding order per calendar day shall be deducted from the final payment until the Auxiliary Equipment Set is considered acceptable. If after 30 days, the Auxiliary Equipment Set is not brought up to compliance, the bidder will be considered in default of the contract, and procedures to institute the provisions of the performance bond may commence.

ADHERENCE TO SPECIFICATIONS

The purchaser's specifications shall, in all cases, govern the construction of the Auxiliary Equipment Set. **THIS IS NOT AN RFP (Request for Proposal).**

NOTICE TO BIDDERS: ANY SUBMISSION INDICATING THAT THE MANUFACTURER'S SPECIFICATIONS SHALL SUPERSEDE THE PURCHASER'S SPECIFICATIONS WILL IMMEDIATELY BE REJECTED.

SUBMISSION REVIEW AND EQUIVALENTS

To properly review all bid/quotes, the Government of Guam General Services Agency, will utilize its policies, rules and regulations as well as the provisions of the most current version of the Guam Procurement Code, Guam Code Annotated and other public laws that govern this procurement.

Any submitted "equivalent" in construction, performance, test, or items of equipment between this (purchaser's specification and bidder's submission) shall be detailed and submitted on a separate sheet along with the bidder's submission in specification sequence, citing equivalent number, page, section and line numbers.

The bidder must explain in detail, along with full supporting documentation, such as but not limited to photographs, product brochures and test data, how the proposed item(s) meets or exceeds the specifications. **FAILURE TO COMPLY WITH THIS REQUIREMENT WILL AUTOMATICALLY DISQUALIFY THE BIDDER.**

The purchaser reserves the right to determine which (if any) equivalents are acceptable.

SPECIAL REQUIREMENTS

The overall quality of the finished Auxiliary Equipment Set is critical to the Guam Fire Department. The bidder shall supply all special and specific information and facts regarding the performance of the Auxiliary Equipment Set.

THE RIGHT TO REJECT SUBMISSIONS

The Chief of Guam Fire Department reserve the right to reject any and all submissions received and accept any that, in their judgment, best serves the interest of the people of Guam.

WITHDRAWAL OF SUBMISSIONS

No submission may be withdrawn within ninety (90) days following the submissions by the bidders to the General Services Agency of the Government of Guam

AWARD OF CONTRACT

A contract will be awarded, as soon as practical following the review of the bid/quotes, to deliver the Auxiliary Equipment Set specified. It is not the intention of the Guam Fire Department/Government of Guam to write out bidders, vendors or manufacturers of similar or equal equipment of the types specified. It should be noted however that this specification is written around specific needs of the Guam Fire Department.

BOND SUPPLIER'S QUALIFICATIONS

The bonds furnished by the successful bidder shall be from a surety company with a current license to underwrite surety bonds by the Government of Guam on Guam.

INFRINGEMENTS AND INDEMNIFICATIONS

Upon the award of an order or contract, the successful bidder shall protect, defend and save the Guam Fire Department/Government of Guam harmless against any demand for payment for the use of any patented material, process, article, or device that may enter into the manufacture, construction or form of the work covered by either order or contract.

The bidder further shall indemnify and save the Guam Fire Department/Government of Guam harmless from suits or actions of every nature and description brought against it, for or on account of any injuries or damages received or sustained by a party or parties, by or from any of the acts of the contractor, and/or the agents, employees, successors or assigns of the contractor.

DEFAULT PROVISIONS

In the event of default by the bidder, the Guam Fire Department/Government of Guam may procure the articles or services from any other sources without further advertising and the contractor will be responsible for any excess costs occasioned thereby.

PAYMENT TERMS

The Guam Fire Department will accept no contract form that requires down payments, progressive payments during construction, or contracts with escalator clauses. Terms of payment shall be 100% payment, within thirty (30) days, upon delivery, testing, and acceptance of the vehicle and receipt of invoice. No other terms shall be acceptable.

ACCEPTANCE

Acceptance of the delivered Auxiliary Equipment Set and equipment will be made at the completion of inspection and the receipt of all specified equipment. Equipment items not delivered at the time of the tests or construction not in conformance with the bidder's proposal will be cause for the accepting authority to withhold payment until all conditions of the final, approved specification have been met.

Failure to comply with changes to conform to any clause of the specifications, within 30 days after notice is given to the bidder of such changes, shall also be a cause for rejection of the Auxiliary Equipment Set.

WARRANTIES

All warranties described herein and within the specifications, are the minimum warranties that will be acceptable. Any warranty that does not meet these minimums shall be grounds for immediate rejection of the bid/quote submission.

The Bidder shall provide a full statement of the warranty provided for the Auxiliary Equipment Set being bid. This warranty should clearly describe the terms under which the Auxiliary Equipment Set Manufacturer accepts responsibility for the cost to repair defects caused by faulty design, quality of work or material, and for the applicable period of time after delivery.

Cost of repairs refers to all costs related thereto including, but not limited to, the cost of materials and the cost of labor.

The Manufacturer shall warrant all materials and accessories used whether fabricated by the Manufacturer or purchased from an outside source and will deal directly with the Guam Fire Department on all warranty work.

The warranty shall commence upon acceptance of the Auxiliary Equipment Set.

THIRD-PARTY CERTIFICATION/ ISO COMPLIANCE

In order for an element to be labeled compliant to a given NFPA standard, it must be tested by an independent third-party organization that is not owned or controlled by manufacturers or bidders of the product being certified. The third-party testing agency cannot have any monetary interest in the product being certified.

Additionally, the certification organization must be primarily engaged in certification work, such as Underwriters Laboratory or Intertek Testing Services. This independent third-party company verifies that the design and construction is in accordance with design requirements, and that the element has successfully passed all performance requirements set forth in the standard to which it is labeled.

Any change in materials or design requires additional testing, and random audits, including sampling, occurs at least twice a year to ensure that every requirement is tested annually. A third-party registrar is also required to validate the manufacturing quality process, in accordance with ISO 9001.

NFPA COMPLIANCE

NFPA is a standards writing organization, founded in 1896 and dedicated to the concept of voluntary consensus standards writing. While it is not an enforcing agency, NFPA enjoys a unique reputation and its standards have been adopted by all levels of government, in many cases giving the standards the force of law. Each NFPA standard undergoes revision every five years to ensure that it is kept current with new fire protection knowledge and technologies. The NFPA process requires "balanced" committees and is open to anyone who wishes to participate.

ALL ELEMENTS OF THE AUXILIARY EQUIPMENT SET MUST MEET OR EXCEED APPLICABLE NFPA STANDARDS. REGARDLESS OF SPECIFICATIONS OR MANUFACTURER CLAIMS, PROOF OF CERTIFICATION MUST BE AVAILABLE.

LIABILITY

The successful bidder shall defend any and all suits and assume all liability for the use of any patented process including any device or article forming a part of the Auxiliary Equipment Set or any appliance furnished under the contract.

WARRANTY PERFORMANCE

This Auxiliary Equipment Set is critical to the safety of the responders of the Guam Fire Department. It is imperative that the Auxiliary Equipment Set remain in service and that "down time" be minimized. The following warranty performance provisions are required:

The successful bidder shall be required to address service and or repair issues, as soon as possible but no more than twenty-four hours after notification by the Fire Department.

If the bidder does not address the service/repair request within the twenty-four hour time frame, it will be assumed as approval for the Fire Department to repair the vehicle or obtain warranty service/repairs from component manufacturers or outside vendor(s) repair facilities. **The Fire Department shall be paid, by the bidder; an area average hourly rate for labor inclusive of items replaced one for one.**

Defective and other parts replaced, as a result of these service/repairs, will be labeled and retained by the Fire Department. Parts shall be paid for by the contractor in exchange for work orders and replaced parts. Outside vendor repair facility parts and labor charges shall be billed directly to the successful contractor.

The bidder shall take full responsibility for returning any defective parts to their supplier.

These aforementioned service and/or repairs will, in no way, affect the validity of any warranties as depicted within the approved specifications. There shall be no deviations to these requirements.
