INVITATION FOR BID

GSA-021-22 Manage WiFi Services and Support For Guam Behavioral Health and Wellness Center

AMENDMENT #7

1. Amend page 35 of 37.

From:

SPECIFICATIONS:

BIDDING ON OR REMARKS

Scope Requirements:

Bidder will be allowed to use existing MDF and IDF racks at agency network locations for their network equipment.

In installations that are new, the bidder may be required to install new network racks, patch panels, switches, CAT6 cable drops, and UPS as required for the respective service location of the agency.

Bidder must maintain their own UPS at any of the MDF or IDF locations for their respective network equipment for the duration of the services.

Bidder will provide secured up to 100mbs symmetrical Internet service for the managed WIFI solution.

Bidder should provide all necessary equipment needed to deliver the requested solution.

The specified facilities are separate. WIFI coverage should be configured separately. The WIFI coverage should be designed, secured, and configured to maintain uninterrupted service throughout the building.

Bidder is expected to provide a fully secured and robust managed WIFI solution.
