Length- 43 feet

**System Installation and Planning:**

- a) The successful bidder shall conduct a detailed survey of each school bus type and develop a vehicle layout plan documenting the location of cameras and DVR and “field of view” for each bus type in the fleet.
- b) Hardware and software installations and removal, programing, warranty repairs and required services shall be performed at the contractor’s location or Government of Guam (DPW) facilities. The contractor shall be liable for damages to the buses incurred while in the contractor’s possession. A vehicle inspection shall be conducted by the end user and the contractor before and after any work performed to identify any sustained damaged.
