## Invitation For Bid
## GSA-042-23
## D4 Dozer (Latest Model)

**Questions and Concerns received from Pacific Unlimited May 20, 2023**

1.) The spec says the cab does not need to be enclosed but requires a overhead guard with clear plastic to protect operator from the rain. Can you provide a picture of what the expectations are? The only way to protect the operator from the rain is to have a fully enclosed cab with AC. This also makes the unit an all weather machines so it is more efficient. If this unit is for DPW and they use it for typhoon clean up or preparation it should be fully enclosed for efficiany and to protect the operator from the rain and getting sick.
**Response:** Please refer to specifications on page 35 of 38, as indicated;
**Cab and Operator's Station:** The cab shall be fully Enclosed Cab with Air Conditioning.
Therefore, DPW requires an enclosed cab with air conditioning.

2.) Our machine weight is 36,000 pound much heavier than the specification requirement, but we use a Cummins QSF3.8 engine with 131 HP for fuel efficiency and a deep reduction gear for torque. Is this engine acceptable?
**Response:** Yes, that is acceptable.
DPW requires that the equipment be a MINIMUM of 13,272lbs., and NO LESS than 130 hp.

3.) Please clarify the warranty requirement. In 1 section it says 1 year/ Unlimited hours and in another section is says 12 months/1500 hours
**Response:** Section 1 of the warranty, which specifies 1 year/Unlimited hours, covers the parts, components, and accessories associated with the equipment.
Section 2 of the warranty, which specifies No less than 12 months/1500 hours, covers the Warranty Preventive Maintenance for the equipment.

4.) The bid funding source indicate funded by the American Recovery Act. Does this require equipment to be made in America?
**Response:** No

**Questions and Concerns received from Morrico Equipment May 19, 2023**

1.) Required Delivery Date 180 days upon receipt of purchase order.
Due to the ongoing and continued world supply chain constraints and delays, manufacturers are experiencing delayed manufacture times.
We request if the Required delivery date, can be adjusted to read "270-365 days upon receipt of purchase order"?
**Response:** Refer to Amendment #3

2.) Engine. No less than 130 HP. Please advise if engine horsepower rating of 127 hp will be accrptable.?
**Response:** No. Please refer to specifications on page on page 35 of 38.
**"Engine:** No less than 130 HP
Must operate with fuel available on Guam"

3.) Operating Weight. 13,272 lbs minimum. Please advise minimum operating weight of 30,000lbs is acceptable?
**Response:** Yes. Operating weight a minimum of 13, 272lbs. or greater
