Invitation For Bid
GSA-007-24
Pick-Up Truck 4x4, Double Cab V6 (Latest Model)

Questions and Concerns received from Monster Auto Corp dba: Guam Auto Spot on February 16, 2024.

1. Will a 2.7L Engine Suffice?
   Which is better 2.7 L Turbo or 4.3 L V6?
   Performance. With a new 3-phase Camshaft, the 2.7L Turbo 4-cylinder engine can provide excellent fuel economy as well as good performance. The 2.7L Turbo I4 is a full second faster than the 4.3L V6. And almost a second and a half faster than the old 4.8L Vortec V8.
   Response: No, specifications will remain the same.

2. Will the overall length of 213.2" be acceptable? The GMC Canyons only come with one bed size, which is the short-bed at 61.7" or 5'.
   Response: No, specifications will remain the same.

Please Note: Follow up/Clarification to the Questions and Concerns responses dated 02/23/2024 must be submitted to the General Services Agency via email to gsaprocurement@gsadoa.guam.gov no later than 5pm, Monday, February 26, 2024.

Andriana Quitugua
