Invitation For Bid
GSA-056-26
Heavy-Duty Gun Safe

Questions and Concerns received from Pacific Resolution Corp. on September 15, 2026.

1. We just finally identified a source, but they are asking about the fire certification. We acknowledge the requirement for that, but we would like to know what is the required fire rating for time & temperature that the end user is looking for?

Response: Fire rating of 30 mins at 1200 degrees Fahrenheit or greater. Must be certified by manufacturer or independent lab test. Refer to amendment #3.

Questions and Concerns received from Pacific Resolution Corp. on September 16, 2026.

2. The specs call for mechanical combination lock, but those lock types to our knowledge do not come with override keys. Override keys are usually for electronic keypad locks. Could you please confirm that you folks are indeed looking for what the specs indicate, or if it's an error? I believe this is a point that needs to be entertained as it could lead to a bid that will have no offers.

Response: The specification for override keys has been removed. Refer to amendment #3.

3. It would also help if you could advise a minimum height & square foot footprint as 40gun safe may vary depending on manufacturer.

Response: Safe dimensions shall be approximately 60 inches in height, 36 inches in width, and 24 inches in depth. Variations in dimensions of up to 4 inches may be acceptable, provided the safe is designed to securely store a minimum of forty (40) long guns measuring up to 44 inches in overall length without requiring disassembly. Refer to amendment #3.

Please Note: Follow up/Clarification to the Questions and Concerns responses dated 10/5/2026 must be submitted to the General Services Agency via email to bids@gsadoa.guam.gov no later than 5pm, Tuesday, October 6, 2026.
